making the fictional story concept available for online access to enable the multiple collaborators to submit competing story content related to elements in the fictional story concept;

accepting the received competing story content associated with the fictional story concept from the multiple collaborators if the received competing story content meets the predetermined criteria;

determining selected story content from the accepted competing story content submitted from each of the multiple collaborators that is approved for inclusion in the story based on votes received online through a wide area network connection from the one or more editors and at least one of the multiple collaborators;

creating the story from the selected story content that is approved; and

deleting the accepted competing story content if the received votes have failed to approve the content" in combination with other features.
